FDA REG: 3016696612
New Jersey Drug and Medical Device
Registration: 5005855
CAGE CODE: 8RFL6
NAICS CODES: 541713, 423450

**AKERS NANOTECHNOLOGY PROVIDES THE PRODUCTS AND SERVICES
REQUIRED FOR YOUR MISSION TO BEAT COVID-19.**

CAPABILITIES

- **Supply of rapid diagnostic tests, vaccines, and pharmaceuticals**
- Development, manufacture, and supply of unique, inventive, and cutting-edge proprietary rapid diagnostic tests
- Strategic partnerships with suppliers of non-proprietary products
- Divisions: COVID-19 and Infectious Diseases, Health and Wellness, Specialty Pharmaceuticals (pharmaceutical products in short supply)
- ***Core Competencies***: research and development, manufacturing, commercialization, distribution, product approvals, regulatory affairs
- ***Markets served (USA & International)***: commercial, wholesale and distribution, diagnostics, government, military, NGOs, occupational health, managed care organizations, fitness and wellness
- Global footprint
- Distinct record of innovation and success: Developed, patented, and commercialized numerous unique rapid diagnostic tests, including for infectious diseases, STDs, drugs of abuse, alcohol, and adverse drug reactions.
- Seasoned, veteran management team has been working together for 40+ years.

PRODUCTS

- **ImmuTrak™ Rapid COVID-19 Urine Antibody Test**
- **ImmuTrak™ Rapid COVID-19 Blood Antibody Test**
- **COVID-19 Rapid Antigen Test - multiple brands**
- **COVID-19 Therapeutics - Paxlovid**
- **Specialty Pharmaceuticals: Ozempic, Lidocaine**
- **COVID-19 Vaccines - multiple brands**
- **Influenza Vaccines - multiple brands**
- **KetoFit™**
- **OxiFit™**
- **Immunity Strategy**

ImmuTrak™ Rapid COVID-19 Urine Antibody Test

- **Detects IgG antibodies which indicate active immunity.**
- This one-step test is easily performed by anyone, anywhere, especially at home, with the first urine in the morning. Easy to use, no equipment needed.
- 15 minutes to test result. Takes less than 2 minutes to administer.
- CE Mark
- SPECIFICITY: 100%, SENSITIVITY: 97.7%
- Uses: verifies vaccine efficacy and protection longevity, back-to-work and back-to-school safety programs, tracking population antibody status
- App connected to test (optional)

Immunity Strategy - Program for Populations & Individuals **FOLLOW YOUR IMMUNITY STATUS**

1. Test to determine if the person is immune to COVID-19. IgG antibodies indicate active immunity.
2. ImmuTrak™ App: The app reads the test results, and creates a digital immunity pass which shows the immunity status of the person tested. If the person is not immune, then they can schedule a vaccination.
3. Vaccination & Data: The app has the capability to transmit the immunity status and disease history of populations to stakeholders. Data from the test results creates an accurate real-time COVID-19 data map of immune and non-immune people. The stakeholders can use these data to take appropriate actions.

Coming Soon: ImmuTrak™ Rapid COVID-19 Saliva Antibody Test
In Development: Rapid SARS-CoV-2 Breath Test
